

# Nicole Conde

## FRONTEND DEVELOPER

As a Front End Developer with experience in Business Administration, I have a strong interest in leveraging technology to guide the growth and strengthen the operations of companies through web development. My creative and innovative skills enable me to design and develop products across various channels that turn ideas into tangible results with a significant impact on user experience (UX).

My strengths lie in collaboration, communication, and teamwork, and I am always focused on professional improvement. I aspire to learn mobile development (React Native), artificial intelligence, and other related areas.

Adaptability to change  
Creative design  
Planning and organization skills  
Project management
